The Grundfos UPA N is an ultra quiet, compact domestic pressure booster pump designed to increase existing pressure to a single hot water outlet in the home.

- **Increase hot water pressure for a single tap** - Ultra quiet, compact domestic pressure booster pump designed to increase existing pressure to a single hot water outlet
- **Hygienic, stainless steel construction throughout**
- **Built-in controller, so no extra wiring required**
- **Ultra quiet operation** - Very quiet operation that won't disturb your family
- **Simple to use** - In AUTO mode the pump is operated via a built-in flow switch, which starts and stops the pump only when the tap is turned on or off. In MANUAL mode the pump will operate continuously.

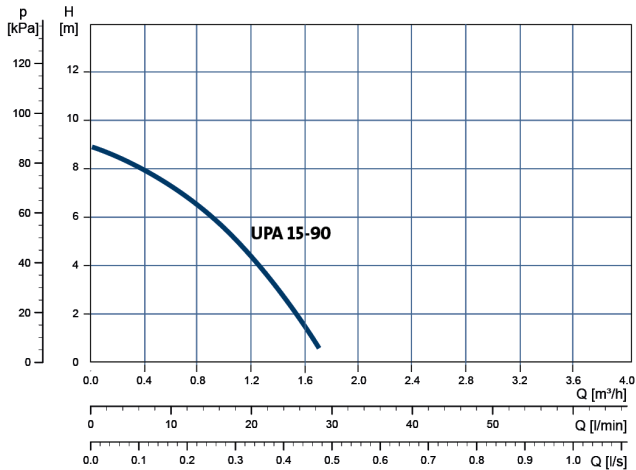

UPA 15-90 N

Adds 50 kPa pressure for one tap
