UNILIFT KP

SUBMERSIBLE STAINLESS STEEL DRAINAGE PUMP

WATER SOURCE

APPLICATION

Clean Water Drainage

Storm/Grey Water Handling

The Grundfos UNILIFT KP is a highly durable submersible pump constructed from stainless steel, making it ideal for all types of grey water and storm water handling around the home and in light industrial applications.

- **High corrosion resistance** Constructed of high quality industrial grade components. All parts in contact with water are made from 304 stainless steel.
- **Options for confined areas** A vertical Niro Float Switch option is available for installation into confined pits where a regular float may not operate properly
- Suitable for fully or partially submerged use Comes with an integrated motor cooling jacket, allowing the pump to operate for extended periods whilst only partly submerged
- **Light weight and portable** At a weight of no more than 7 kg the UNILIFT KP can be used in either a permanent installation or as a portable drainage pump
- Easy submerged installation plug & pump Connect the pump outlet to the pipework, plug into a power outlet and you're ready to pump

TECHNICAL & PERFORMANCE DATA

PERFORMANCE CURVE

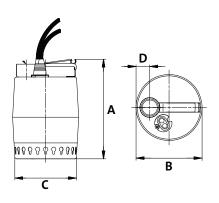

OPERATING CONDITIONS

Liquid Temperature	0°C to +50°C
Max. Particle Size	10 mm
Max. Installation Depth	10 m
Minimum Pumping Level	Down to 100 mm
pH value of pumped liquid	4 to 9

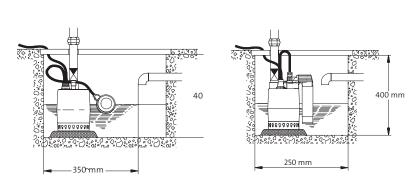

TECHNICAL DATA

Power Supply Voltage	220-240 Volt, 50 Hz
Power Supply Cable	5 m with plug
Enclosure Class	Suitable for submerged installation (IP68)
Approvals and Markings	C-Tick Compliance
Impeller Type	Semi-open

PHYSICAL ATTRIBUTES

MINIMUM PIT DIMENSIONS UNILIFT KP - NORMAL/VERTICAL FLOAT

Model Motor Power P2 (kW)	Motor Power P2	Connection	Dimensions (mm)			Weight	
	(kW)	Outlet	A (h)	B (w1)	C (w2)	D (outlet)	(kg)
